Project Name: Boosting Individual Competences (BIC)

Project Number: 2016-1-DE02-KA204-003276

Name of Activity	Factors that influence climate
Language(s)	English
Suggested Level	From A2
Suggested Objectives	<p>Improve comprehension and learn new contents by watching a video dealing with a geographical/scientific topic (CLIL)</p> <p>Improve communicative skills through the production of materials and the oral presentation of the topic to other students</p> <p>Increase cooperative skills and creativity through group work</p>
Procedure	<p>This learning unit is made up of two parts.</p> <p>First part</p> <p>The students are lead to the comprehension of a video about the factors that influence climate.</p> <p>The guided comprehension activities proposed in the 6 worksheets are based on the you tube video “BASICS OF GEOGRAPHY- CLIMATE”.</p> <p>They should be integrated with warming-up, follow-up and review sessions.</p> <p>Second part</p> <p>A real task is set: the students have to prepare posters or other visual materials and present the topic to other students.</p> <p>In this phase the students work in small groups, make decisions and carry out the task. The teacher should encourage them to look deeper into the matter by consulting textbooks , internet sites and atlases.</p>
